Experienced IT professional with knowledge in software development, IT infrastructure and business intelligence, always looking for challenges and studying new technologies.

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer

WayCarbon

September 2022 - Today

As a squad leader, I led the development of the NetZero module, ensuring timely delivery and high-quality standards. Active in requirements refinement. Proficient in Python, Flask, JavaScript/TypeScript, Angular, AWS, Docker, MySQL, MongoDB, and agile methodologies.

Senior Full Stack Developer

Mundo Lolita

August 2021 - Today

Led dev initiatives driving efficiency & innovation. Expertise in BI tools (MySQL, Pentaho, Python). Created robust web apps with Django. Developed strategic integrations (VTEX, Pinterest, Google APIs). Proficient in Python, Django, Flask, MySQL, TypeScript, React. Experienced in platform integrations. Skilled in React, NextJS. Proficient in Google Data Studio, Analytics.

IT Coordinator

TIE Tecnologia da Informação Empresarial

July 2018 - August 2021

As the IT Coordinator, leading a technical support team, I played a crucial role in the efficient management of IT environment deployment, security, optimization, and licensing projects. I stand out for significantly boosting the company's service and solution offerings by establishing strategic partnerships with renowned companies like Kaspersky, VMWare, and Veeam.
